

MEETING TRUTH ✦ SATSANG

with Florian Schlosser in Montreal, Canada

21st to 27th June 2017

THE JOY OF BEING

The meetings and retreats with Florian are an open and sincere invitation to recognize, in your own experience, who you really are, and to redeem your birthright: to be free, to expand and to grow into your full human potential. The meetings are not a mere philosophy or religious or psychological concept, nor do they proclaim or represent any specific spiritual path or tradition. What Florian transmits is only based on his direct experience and self-inquiry. Attending the meetings can bring about a fundamental shift in consciousness that itself has the potential to instantly release you from any false identification which has caused suffering and pain in your life since the beginning of time. The encounters are a unique opportunity for an open and mature dialogue which expands your capacity to welcome the richness of life with your entire nervous system. The discoveries you make will accompany you in daily life like a good friend who walks together with you through the ups and downs of the human experience. Meeting this way re-establishes a deep connection with yourSELF. This intimate connection is love.
